Also, use strong passwords, and remember they need to be unique in every system and changed on a regular basis.

Lastly, please remember that you can use the "**Forgotten Password?**" Link in the BSPlink home page to reset and reinforce your credentials.

### **Developments Released**

An enhanced functionality has been added to the BSPlink's Rejected Documents query when loading Rejected Master Table from iBSP and Maestro in order to display and filter correctly the rejections with values R (Rejected) and W(Warning).
