Welcome to the June 2017 Newsletter!

Reminder: BSPlink Credentials

BSPlink users are reminded not to share their passwords. Sharing account credentials can put organizational security at risk by exposing customer information and financial data to unauthorized users.
Also, use strong passwords, and remember they need to be unique in every system and changed on a regular basis.
Lastly, please remember that you can use the "**Forgotten Password?**" link in the BSPlink home page to reset and reinforce your credentials.

Developments Released

Enhancements to TA messaging from BSPlink

Three enhancements have been performed to the automatic e-mail alerts which are delivered to the corresponding users when TA modifications are performed. Also, an optional daily zip file with file descriptor '16' can be generated for the GDS users containing all warning validations.
The development was released on 30th May 2017.

New related document types for ADMs and ACMs

When an ADM or ACM is issued, in addition to the current document types, two new radio buttons (Exchange and EMD) will be added to the related documents section in the ADM and ACM forms.
Now, the user will be able to select four different values: Issue, Refund, Exchange and EMD.

With this new enhancement, also the Mass upload loader will be modified and within the COIN element (in IT0G record), the user will have the option to report two new values: X= Exchange and E= EMD.

BSPlink NEWSLETTER

NewGen ISS – EasyPay & FOP BSPlink Interface

New query options will be added through which the users will be able to query the allowed forms of payment for each agent and the EasyPay status for each airline.

BSPlink Refunds functionalities

For all applicable countries where the Easy Pay form of payment is activated, the refund-related functionalities will be adapted.

Enhancement on ADM Communications in BSPlink

To comply with the Industry requirements new enhancements to improve the communication channel in BSPlink between Agents, Airlines and GDSs will be implemented to discourage usage of email communication outside of BSP. These changes will also improve the ADM communication tool and the visibility of the ADMs forwarded to the GDSs.

EasyPay – Queries update

For all the applicable countries where the Easy Pay form of payment is allowed in BSPlink (i.e. the BSP Basic Parameter "Easy Pay Available" is activated), all the related queries will be modified to include EasyPay as a valid Form of Payment. Also, the HOT loader process will be modified to accept EasyPay as a valid FOP.

Global ADM Policy Query

This option allows users to query the ADM policies configured by the airlines present in the BSPlink environment.

The 'download' and export to text format (.txt). option has been added within Agent's query.
