BSPLink Enhancement For ADM Policy

URGENT UPDATE: As part of changes to Resolution 850m approved by PaConf, effective as from 1st June 2014, it has been announced that airlines were required to have a link, in BSPlink (ASD in China), to their respective ADM policies in order to continue to be able to issue ADMs in BSPlink as mandated tool for debit memo processing.

Following requests from multiple airlines and in agreement with PaConf Chairman, the systemized mandate in BSPlink requiring airlines to publish a URL link to their ADM policy website is being deferred to 31 December 2014.

vMPD Sunset Communication

The IATA e-Services project supports the travel and tourism industry by facilitating the sales and collection of ancillary services through all distribution channels – including travel agents and online airline sales - using IATA's electronic miscellaneous document (EMD) standard.

Since 1st November 2014 (00.00 local time) vMPD is no longer accepted in BSPlink. All miscellaneous transactions have been replaced by EMD in IATA BSP worldwide.
