Welcome to the September 2017

Agent

Reminder: BSPlink Credentials

BSPlink users are reminded not to share their passwords. Sharing account credentials can put organizational security at risk by exposing customer information and financial data to unauthorized users.

Also, use strong passwords, and remember they need to be unique in every system and changed on a regular basis.

Lastly, please remember that you can use the "**Forgotten Password?**" Link in the BSPlink home page to reset and reinforce your credentials.

Future Developments

NGISS – New Location Type/Host Location Type additions

As a part of the NGISS Project, BSPlink will be adapted to accept the new values for the Location Type/Host Location Type regardless of the agent's class or environment type:

- HO (Head Office) and AO (Administrative Office) will be merged into a new type HE (Head Entity).
- BR (Branch Office) and SA (Specific Sales Activity) will be merged into new type AE (Associate Entity).

Also, the corresponding queries containing agents' data will be modified to display these new values.

Delete Files and Delete Files Query options

These new functionalities will allow users to delete (uploaded) files and to query the amended files. The two options 'Delete Files' and 'Delete Files Query' will be are available for users: Airline, BSP, DPC, Third Party, HOMU and MCMU under the 'FILES' module.

Payment Card Acceptance module

A new module called 'Card Acceptance' to query and modify the acceptance of payment cards (or merchant agreements if applicable) in BSPlink will be added for the users.
