## Welcome to the December 2014 Newsletter!

### In this edition:

- **BSPlink** Enhancement for ADM Policy
- sFTP Visibility for File Descriptor 'mi'

### GDS

- No related development this month.

### **BSPlink Enhancement for ADM Policy Enhancement**

**URGENT UPDATE:** As part of changes to Resolution 850m approved by PaConf, effective as from 1 June 2014, it has been announced that airlines were required to have a link, in BSPlink (ASD in China), to their respective ADM policies in order to continue to be able to issue ADMs in BSPlink as mandated tool for debit memo processing.

Following requests from multiple airlines and in agreement with PaConf Chairman, the systemized mandation in BSPlink requiring airlines to publish a URL link to their ADM policy website has been deferred to **31<sup>st</sup> December 2014.**

### **Developments for Release on Tuesday, 30<sup>th</sup> December 2014**

#### **sFTP Visibility for File Descriptor 'mi' (AL)**

Airline communication files '0000' with file descriptor 'mi' will be copied from the country they were delivered to, to the corresponding HOMU SFTP accounts 'download' folder, as long as the HOMU has access to that country.

### **GDS Corner**

No related development this month.
