Reminder: BSPlink Credentials

BSPlink users are reminded not to share their passwords. Sharing account credentials can put organizational security at risk by exposing customer information and financial data to unauthorized users.
Also, use strong passwords, and remember they need to be unique in every system and changed on a regular basis.
Lastly, please remember that you can use the "**Forgotten Password?**" Link in the BSPlink home page to reset and reinforce your credentials.

Developments Released

RTDN validation on ADM

The BSPlink online validation process and mass-upload process will be changed to fully comply with Resolution 850m. Depending on the TRNC of the first related document (RTDN) reported, the DAIS of the ADM will be compared with the FTDA or DAIS of the RTDN.

Future Developments

PBDs - Download/Upload files by Airlines

The airline users (LOMU, LOSU, HOMU and HOSU) will be able to manage the Post Billing Disputes issued by the agents through mass upload files. They will also be able to review the modifications made on Post Billing disputes during the day through a daily mass download file that will be received in the same way as the ACM/ADM or refund mass download files.

For internal contacts to BSP*link* team, please open an internal SalesForce case and escalate through "Operational Tools - HO" queue.
