

### Reminder

- **Reminder: BSPlink Credentials**

## Welcome to the February 2018 Newsletter!

**Airline**

### February Developments

- **Payment Card Acceptance Module**
- **Country/Territory**
- **Delete Files and Delete Files Query options**

### Future Developments

- **Commission Control Query and Self-service update**

### **Reminder: BSPlink Credentials**

BSPlink users are reminded not to share their passwords. Sharing account credentials can put organizational security at risk by exposing customer information and financial data to unauthorized users.

Also, use strong passwords, and remember they need to be unique in every system and changed on a regular basis.

Lastly, please remember that you can use the "**Forgotten Password?**" Link in the BSPlink home page to reset and reinforce your credentials.

### **Developments to be released**

#### **Payment Card Acceptance module**

A new module called 'Card Acceptance' will be added, for the users to query and modify the acceptance of payment cards (or merchant agreements, if applicable) in BSPlink.

#### **Country/Territory**

BSPlink Support has changed all references made to the word 'Country' into 'Country/Territory' in the webpages accessible by external parties.

#### **Delete Files and Delete Files Query options**

This new functionality will allow users to delete a file they have uploaded (and is already present in the user's container) as well as query the deleted files.

The two options ('Delete Files' and 'Delete Files Query') will be available for the Airline, BSP, DPC, Third Party, HOMU and MCMU users, under the 'FILES' module.

For internal contacts to BSPlink team, please open an internal Salesforce case and escalate through "Operational Management - HO" queue.

BSPlink Webpage: <https://www.bsplink.iata.org>

### **Future Developments**

#### **Commission Control Query and Self-service update**

With these new options, airlines will be able to define, update and query the setups of their commission controls and the transmittal of that information to other related users (agents, BSP, GDS, DPC) in BSP*link* System. Also, Agents and GDS will have a Commission Control email alert in case changes are performed by the Airline.
