

BSPlink AIRLINE & GDS NEWS

Welcome to the January 2016 Newsletter!

In this edition:

Airlines and GDS

- Security update – 1st December 2015 - Internet Browsers
- BSPlink Integration with IATA's Customer Portal

IATA Customer Service:

www.iata.org/cs

**Developments for Release on
Tuesday, 26th January 2016**

Security Update 1st December 2015 - Internet Browsers

The message was posted to give advanced notice to all users who do not have the TLS v1.1 and TLS v1.2 protocols enabled in their web browsers by default. The TLS1.0 protocol has been disabled in BSPlink since 1st December.

Please click [here](#) for instructions on how to enable the protocols in IE, Chrome and Firefox.

BSPlink Integration with IATA's Customer Portal (ALL)

Integration Phase: The BSPlink application will also be accessible through IATA's Customer Portal via "Single Sign On".

Additionally, WebServices will be implemented to manage users' account information and keep both IATA's Customer Portal and BSPlink synchronised.

"Move Out Of Your Comfort Zone. You Can Only Grow If You Are Willing To Feel Awkward And Uncomfortable When You Try Something New." [Brian Tracy]
