IATA

Welcome to the December 2017 Newsletter!

GDS

Reminder: BSPlink Credentials

BSPlink users are reminded not to share their passwords. Sharing account credentials can put organizational security at risk by exposing customer information and financial data to unauthorized users.

Also, use strong passwords, and remember they need to be unique in every system and changed on a regular basis.

Lastly, please remember that you can use the "**Forgotten Password?**" Link in the BSPlink home page to reset and reinforce your credentials.

Developments released

Forward ADM to GDS II

The 'FORWARDED ADMS GLOBAL FILE' GDS option has been enhanced with a filter and date selector, allowing the user to define an airline code for which they wish to receive the file and a period of forwarded ADMs.

Future Developments

Commission Control Query and Self-service update

With these new options, airlines will be able to define, update and query the setup of their commission controls and the transmittal of that information to other BSPlink users (agents, BSP, GDS, DPC). Also, Agents and GDS will have a Commission Control email alert to inform them of changes made by the Airline.
