Welcome to the June 2018 Newsletter!

GDS

Reminder: BSPlink Credentials

BSPlink users are reminded not to share their passwords. Sharing account credentials can put organizational security at risk by exposing customer information and financial data to unauthorized users.

Also, use strong passwords, and remember they need to be unique in every system and changed on a regular basis.

Lastly, please remember that you can use the "**Forgotten Password?**" Link in the BSPlink home page to reset and reinforce your credentials.

Developments Released

FOP file and email changes

The current FOP GDS file will be modified to contain only the modifications of agent forms of payment, i.e. the EP airline changes will no longer be included in the file.

The current "FOPs and EPs" email alert for GDS and BSP users will be replaced by two new alerts: one to inform users about changes in airline EP status (OPTIN/OPTOUT) and the other about changes in agent FOP values.

Future Developments

Commission Control Query and Self-service update

With these new options, airlines will be able to define, update and query the setups of their commission controls and the transmittal of that information to other related users (agents, BSP, GDS, DPC) in BSPlink System. Also, Agents and GDS will have a Commission Control email alert in case changes are performed by the Airline.

For internal contacts to BSPlink team, please open an internal Salesforce case and escalate through "Operational Tools - HO" queue.
