Reminder: BSPlink Credentials

BSPlink users are reminded not to share their passwords. Sharing account credentials can put organizational security at risk by exposing customer information and financial data to unauthorized users.
Also, use strong passwords, and remember they need to be unique in every system and changed on a regular basis.
Lastly, please remember that you can use the "**Forgotten Password?**" Link in the BSPlink home page to reset and reinforce your credentials.
Developments Released

BSPlink: TIP - Enhancements - Reports configuration

The rest of the enhancements not released on July 2019 and related with the Global Consent Management have been released allowing the update of multiple consents at once, terminated consents visibility update or updates in the view of Global Consent Management options.

Future Developments

TIP - Forms of payment CCAC and CCVA

In order to comply with DISH 23 specifications, the payments made with the Virtual Account Numbers (VAN) enrolled with IATA as an Alternative Transfer Method and the payments made with the agents own cards will be identified as CCAV and CCAC respectively.

Weblink ARC US flow migration to DISH 23

The transactions sent to the US market will be included in the Weblink / NDClink RET file in DISH 23 version.
